Lawn Mower Round-Up

Lawn Mower Replacement Information

Did you know that using a typical gas mower for one year can pollute as much as a car driven for 22,000 miles?

This grant program from the Calaveras Air Pollution Control District (APCD) is designed to assist the public in the replacement of existing gasoline or diesel-powered lawn mowers with cordless, zero-emission, electric lawn mowers.

To qualify:

- You must live in Calaveras County;
- Own and operate a diesel or gasoline-powered lawn mower;
- Purchase a new, cordless, zero-emission lawn mower;
- Surrender the old fully-functional lawn mower to G&O Truck Parts in Jackson for permanent destruction;
- Agree to keep the new lawn mower for the next 36 months (3 years).

Rebate Process:

1. Complete the one page application;
2. Purchase a new cordless, zero-emission electric lawn mower (see list on Attachment A). You will need to attach a copy of the invoice and/or product receipt to the application.
3. Within 30 days of purchasing the electric lawnmower, take your gasoline or diesel-powered lawn mower to G&O Truck Parts, located at 9919 California 88, Jackson, CA 95642, for permanent destruction. The lawn mower must be fully operational at the time of surrender to qualify. You will receive a signature and a sticker on your application from the Dismantler.
4. Return the completed application with invoice/receipt to the Air Pollution Control District and, if you qualify, the District will send you a check for \$145 within 60 days.

New Mower requirements:

- New and not a used or previously owned mower
- Cordless and battery-powered
- Push or self-propelled mower specified for residential use
- From the list cited on Attachment A or otherwise approved by the District

Attachment A : District-approved cordless, zero-emission, electric mowers:
